

SEA-90 Essential Elements

The Most Complete Mineral and Trace Element Products Ever Offered for Aquaculture

All SeaAgri products are produced from the Sea of Cortez containing 92 minerals and trace elements, plus more than 50,000 organic compounds.

Scientific data shows that SEA-90's minerals and trace elements stimulate, feed and enhance micro flora populations in soil, and as little as one ounce of SEA-90 Essential Elements provide nearly complete mineral nutrition.

Ionic trace minerals are bio available and absorbed quickly, and easily utilized by animal for creating healthy environment. Trace minerals plays key roles in Bone, and Muscle Development, for Balancing Nervous System, and improving Disease Resistance for Aquatic species.

Advantages:

- **Enhance fertility and conception rates**
- **Improve freshening**
- **Reduce mortality rates**
- **Quicker weight gain**
- **Improved Meat flavor**
- **Improves Water quality**
- **Remineralizing soil with complete package of trace minerals**
- **Maintains minerals in water & soil**
- **Improves molting frequency of shrimp**
- **OMRI Certified, USDA NOP Certified, for Organic farming**

APPLICATION Instructions for Shrimp and Fish(Aquaculture)

Soil Treatment :

20 KGS per Acre during pond preparation

Pond water :

5 kgs per Acre once in 7 days during Culture period

In feed :

Mix 10 gms per Kg feed and apply
