

# SEA-90 Calf and Cattle Feeding Instructions

## FEED SEA-90 AT THE FOLLOWING RATES FOR BEST RESULTS

### **BABY CALVES: In Milk Replacer**

Mix and stir SEA-90 into milk after adding water. SEA-90 dissolves quickly.

5 grams per feeding, Total 10 grams per day

Example : 90 calves require 1 lb (454 grams) per feeding.

$454\text{g} / 5\text{g per calf} = 90\text{ calves}$

### **CALVES ENTERING FEEDLOT: Up To 500 lbs**

1.5 ounces per day

### **CALVES ENTERING FEEDLOT: Over 500 lbs**

2.0 OUNCES /DAY

### **PASTURE CATTLE: Free Choice in separate mineral feeder**
