

Sea-90 Ocean Minerals

CALF AND COW FEEDING INSTRUCTIONS

BABY CALVES: In Milk Replacer (perfect for veal)

Mix and stir SEA-90 into milk after adding water. SEA-90 dissolves quickly.

1) 5 grams per feeding, Total 10 grams per day

Example : 90 calves require 1 lb (454 grams) per feeding.

454g/ 5g per calf = 90 calves

CALVES ENTERING FEEDLOT: Add Sea-90 to TMR daily

1) Up To 500 lbs: 1.5 ounces per day

2) Over 500 lbs: 2.0 ounces per day

CALVES ENTERING FEEDLOT: Brine Tank for Stress Reduction

Add Sea-90 to fresh water daily. (Fresh water source must also be provided)

1) 1 oz per gallon fresh water. 6.5 lbs per 100 gallons fresh water

COW AND CALF PASTURE RECOMMENDATIONS

1) Offer Sea-90 free choice. Typical consumption 2 oz per day per 1000 lb cow

2) Offer Sea-90 in Brine Tank along with fresh water tank. 1 oz per gallon water
